professional profile

I am a Digital Arts Engineer graduate from The University of the Witwatersrand. I have exposure to software, scrum, electrical engineering, and information security fundamentals. I pride myself on continuous learning and applying what I learn to enable myself and others to overcome challenges, through efficient communication and collaboration to deliver high quality actionable results.

skills

- Self learning and improvement
- Software development
- SCRUM

education

2011−2015	**NQF** Level 7 Bachelors Pass	Mondeor High School
2016−2018	**BEngSc.** Digital Arts	The University of the Witwatersrand

work experience

2019−Now	**Dimension Data**	Johannesburg, South Africa

Secure Coding Intern
The internship is focused on **Information Security** and applying its principles to application development. It seeks to create security champions that sit within development teams to spread information security awareness and facilitate a **secure-by-default** software development life cycle. This internship is to serve as the foundation on the path to DevSecOps.

exposure

- **Information Security**
  - OWASP Top 10
- **Electrical Engineering**
  - Electronics and Microprocessors
  - Electromagnetic Systems
- **Information Engineering**
  - Data structures and algorithms
  - Microsoft Azure
- **Game Design**
  - Unity engine
- **Web Design**
  - Fundamentals

interests

professional: Game design; software; electromagnetic systems; information security; enabling and teamwork.

personal: PC gaming; computer hardware enthusiast; analogue games.
